	TECHNICAL DATA SHEET					
		WC	OL			
Product Name	EN 13162+A1 WALLCLAD					
Standard	Thermal insulation products for buildings - Factory made mineral wool (MW) products - Specification					
Description	Mineral wool - Thermal insulation material formed by melting of basalt stone at 1350°C-1400°C into fiber - for thermal, sound and fire insulation product					
-						
Surface Facing	Not faced					
Area of Usage	Premium F series used for heat and sound insulation, and as fire coating exterior surfaces safely.

Storage	The products should be stocked closed. If the storage area is open, the entire surface of the packages must be covered with cover or tarpaulin.					
	Product packages should be protected from water, moisture and sunlight in the storage area.					
	Appropriate work safety clothing and equipment must be used to protect the skin, eye and upper respiratory system during transport.					
	Product packages should be placed on at least one pallet which should not be in direct contact with the ground at storage area.					
	Products must be covered with a tarpaulin when shipped.					
	Do not leave any material on the products in such a way as to damage the package and the product.					
	Palletized products should not be stacked and stored on top of each other.					
	The opened packages must not be disposed of and must be disposed of in accordance with the regulations.
